2002 Annual Index

First Quarter 1-63
Second Quarter 65-110
Third Quarter 111-166
Fourth Quarter 167-248

SUBJECT INDEX

BRIDGES

The Effect of Bedding Layer on the Strength of Shear Connections in Full-Depth Precast Deck
Jong-Hee Kim, Chang-Su Shim, Shigeyuki Matsui and Sung-Pil Chang 127

Flexural Capacity and Ductility of HPS-70W Bridge Girders
Aaron J. Yakel, Patrick Mans, and Atorod Azizinamini 38

Elastic Design Charts for the Rapid Selection of Web Bolts for Composite Steel Bridge Splices
Firas I. Sheikh-Ibrahim 196

COMPOSITE DESIGN

Composite Steel Joists
David Samuelson 111

Perfobond Shear Connector for Composite Construction
Sara B. Medberry and Bahram M. Shahrooz 2

COMPRESSION MEMBERS

Effect of Compound Bucking on Compression Strength of Built-up Members
Lian Duan, Mark Reno and Chia-Ming Uang 30

CONNECTIONS

Errata and Addendum: AISC LRFD Rules for Block Shear in Bolted Connections—A Review
Geoff L. Kulak and Gilbert Y. Grondin 109

Ultimate Strength Prying Models for Bolted T-stub Connections
James A. Swanson 136

Errata: Design Tables for Top- and Seat-Angle with Double Web-Angle Connections
Yosuk Kim and Wai-Fah Chen 166

Discussion: AISC LRFD Rules for Block Shear in Bolted Connections—A Review
Mohan Gupta and L.M. Gupta 240

Closure: AISC LRFD Rules for Block Shear in Bolted Connections—A Review
Geoffrey L. Kulak and Gilbert Y. Grondin 241

Errata: An Experimental Study of Block Shear Failure of Angles in Tension
Howard I. Epstein 242

Design Method for the Bolts in Bearing-Type Connections with Fillers
Firas I. Sheikh-Ibrahim 189

Block Shear and Net Section Capacities of Structural Tees in Tension: Test Results and Code Implications
Howard I. Epstein and Hans Stamberg 228

CRANE RUNWAYS

New Fatigue Provisions for the Design of Crane Runway Girders
James M. Fisher and Julius P. Van de Pas 65

FATIGUE

New Fatigue Provisions for the Design of Crane Runway Girders
James M. Fisher and Julius P. Van de Pas 65

FIRE-RESISTANT CONSTRUCTION

Errata: The Effects of a Severe Fire on the Steel Frame of an Office Building
Robert J. Dexter and Le-Wu Lu 63

FRAMES

Story-Based Effective Length Factors for Unbraced PR Frames
Lei Xu and Yuxin Liu 13

A Practical Look at Frame Analysis, Stability, and Leaning Columns
Louis F. Geschwindner 167

GIRDERS

Tension Field Action in Hybrid Steel Girders
Michael G. Barker, Austin M. Hurst and Donald W. White 52

GUARDRAILS

A Technical Note: Comparison of Design Specifications for Design of Pipe and Round HSS Pedestrian Guardrail Systems
Thomas Sputo 86

JIB CRANES

Design Concepts for Jib Cranes
James M. Fisher and Steven J. Thomas 74

Errata: Design Concepts for Jib Cranes
James M. Fisher and Steven J. Thomas 244

SEISMIC DESIGN

Relating the Seismic Drift Demands of SMRF's to Element Deformation Demands
Akshay Gupta and Helmut Krawinkler 100

P-V-M Interaction Curves for Seismic Design of Steel Column Base Connections
Jaswant N. Arlekar and C.V.R. Murty 154

STABILITY

A Practical Look at Frame Analysis, Stability, and Leaning Columns
Louis F. Geschwindner 167

TENSION MEMBERS

Using Moment and Axial Interaction Equations to Account for Moment and Shear Lag Effects in Tension Members
Howard I. Epstein and Christopher L. D'Aiuto 91

Influence of Bolt-Line Eccentricity on WT Tension Member Capacity
Karl E. Barth, James G. Orbison, and Peter A. Bartels 121

TORSION

Technical Note: Torsional Analysis of Steel Sections
William E. Moore II and Keith M. Mueller 182

VIBRATION

Dynamic Amplitude Prediction for Ballroom Floors
Linda M. Hanagan 148

WELDING

Errata: Rational Basis for Increased Fillet Weld Strength
Nestor R. Iwankiw 243

AUTHOR INDEX

Jaswant N. Arlekar
P-V-M Interaction Curves for Seismic Design of Steel Column Base Connections 154

Atorod Azizinamini
Flexural Capacity and Ductility of HPS-70W Bridge Girders 38

Michael G. Barker
Tension Field Action in Hybrid Steel Girders 52

Peter A. Bartels
Influence of Bolt-Line Eccentricity on WT Tension Member Capacity 121

Karl E. Barth
Influence of Bolt-Line Eccentricity on WT Tension Member Capacity 121

Sung-Pil Chang
The Effect of Bedding Layer on the Strength of Shear Connections in Full-Depth Precast Deck 127

Wai-Fah Chen
Errata: Design Tables for Top-and-Seat-Angle with Double Web-Angle Connections 166

Christopher L. D'Aiuto
Using Moment and Axial Interaction Equations to Account for Moment and Shear Lag Effects in Tension Members 91

Robert J. Dexter
Errata: The Effects of a Severe Fire on the Steel Frame of an Office Building 63

Lian Duan
Effect of Compound Buckling on Compression Strength of Built-up Member 30

Howard I. Epstein
Erratum: An Experimental Study of Block Shear Failure of Angles in Tension 242

Using Moment and Axial Interaction Equations to Account for Moment and Shear Lag Effects in Tension Members 91

Block Shear and Net Section Capacities of Structural Tees in Tension: Test Results and Code Implications 228

James M. Fisher
Design Concepts for Jib Cranes 74

Errata: Design Concepts for Jib Cranes 244

New Fatigue Provisions for the Design of Crane Runway Girders 65

Louis F. Geschwindner
A Practical Look at Frame Analysis, Stability, and Leaning Columns 167

Gilbert Y. Grondin
Closure: AISC LRFD Rules for Block Shear in Bolted Connections—A Review 241

Errata and Addendum: AISC LRFD Rules for Block Shear in Bolted Connections—A Review 109

Akshay Gupta
Relating the Seismic Drift Demands of SMRF's to Element Deformation Demands 100

L.M. Gupta
Discussion: AISC LRFD Rules for Block Shear in Bolted Connections—A Review 240

Mohan Gupta
Discussion: AISC LRFD Rules for Block Shear in Bolted Connections—A Review 240

Linda Hanagan
Dynamic Amplitude Prediction for Ballroom Floors 148

Austin M. Hurst
Tension Field Action in Hybrid Steel Girders 52

Nestor R. Iwankiw
Errata: Rational Basis for Increased Fillet Weld Strength 243

Jong-Hee Kim
The Effect of Bedding Layer on the Strength of Shear Connections in Full-Depth Precast Deck 127

Yosuk Kim
Errata: Design Tables for Top-and-Seat-Angle with Double Web-Angle Connections 166

Helmut Krawinkler
Relating the Seismic Drift Demands of SMRF's to Element Deformation Demands 100

Geoffrey L. Kulak
Closure: AISC LRFD Rules for Block Shear in Bolted Connections—A Review 241

Errata and Addendum: AISC LRFD Rules for Block Shear in Bolted Connections—A Review 109

Yuxin Liu
Story-Based Effective Length Factors for Unbraced PR Frames 13

Le-Wu Lu
Errata: The Effects of a Severe Fire on the Steel Frame of an Office Building 63

Patrick Mans
Flexural Capacity and Ductility of HPS-70W Bridge Girders 38

Shigeyuki Matsui
The Effect of Bedding Layer on the Strength of Shear Connections in Full-Depth Precast Deck 127

Sara Medberry
Perfobond Shear Connector for Composite Construction 2

William E. Moore
Technical Note: Torsional Analysis of Steel Sections....182

Keith M. Mueller
Technical Note: Torsional Analysis of Steel Sections....182

C.V.R. Murty
P-V-M Interaction Curves for Seismic Design of Steel Column Base Connections....154

James G. Orbison
Influence of Bolt-Line Eccentricity on WT Tension Member Capacity....121

Mark Reno
Effect of Compound Buckling on Compression Strength of Built-up Member....30

David Samuelson
Composite Steel Joists 111

Bahram Shahrooz
Perfobond Shear Connector for Composite Construction....2

Firas I. Sheikh-Ibrahim
Design Method for the Bolts in Bearing-Type Connections with Fillers 189

Elastic Design Charts for the Rapid Selection of Web Bolts for Composite Steel Bridge Splices 196

Chang-Su Shim
The Effect of Bedding Layer on the Strength of Shear Connections in Full-Depth Precast Deck 127

Thomas Sputo
A Technical Note: Comparison of Design Specifications for Design of Pipe and Round HSS Pedestrian Guardrail Systems 86

Hans Stamberg
Block Shear and Net Section Capacities of Structural Tees in Tension: Test Results and Code Implications 228

James A. Swanson
Ultimate Strength Prying Models for Bolted T-stub Connections 136

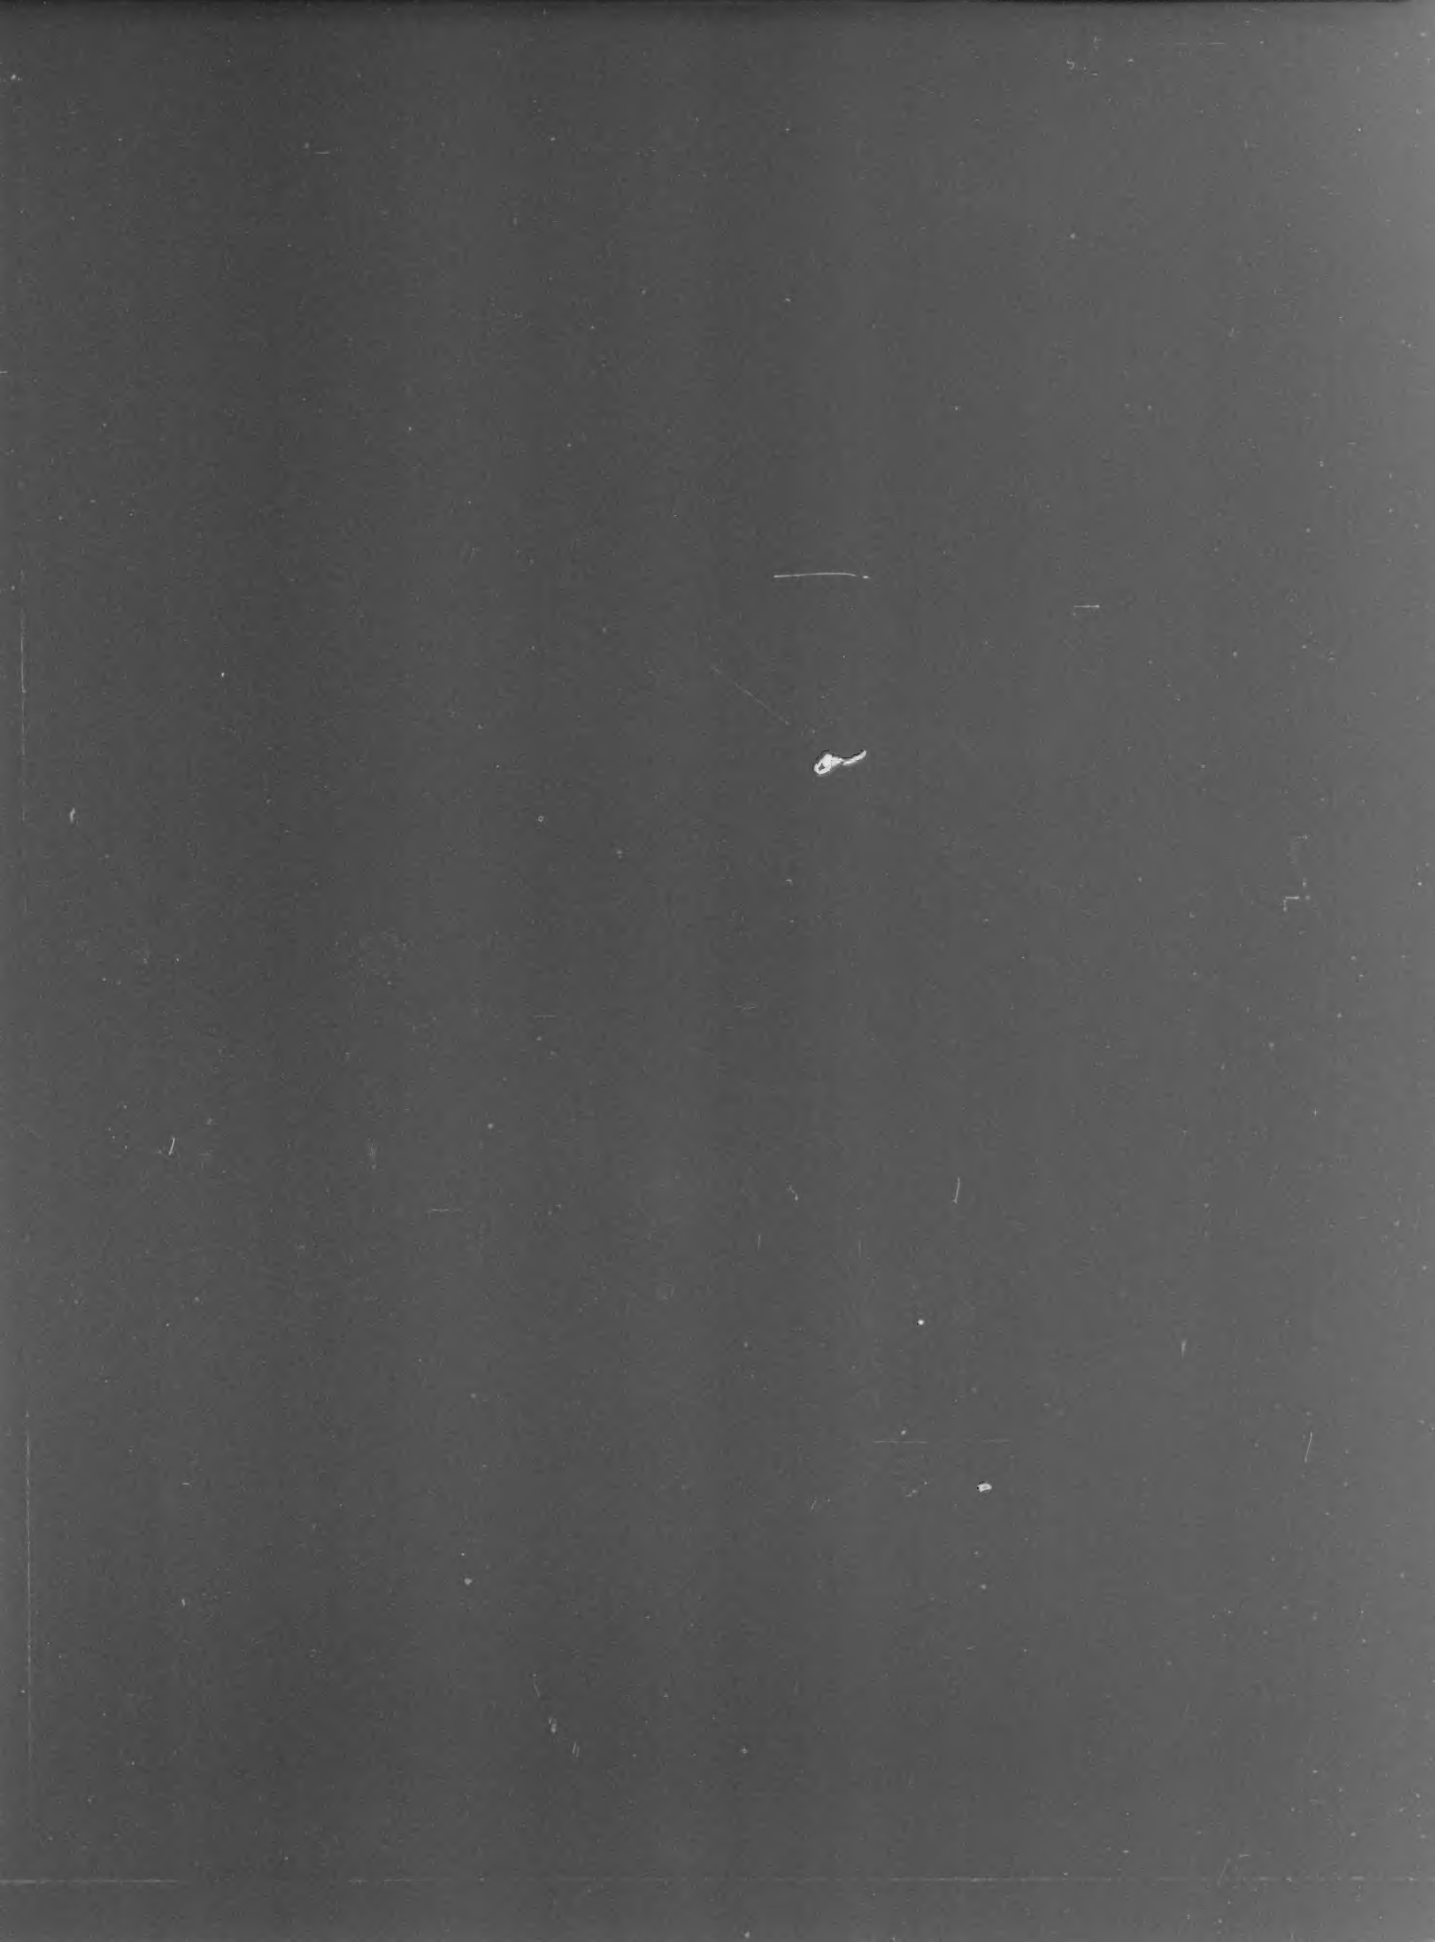
Steven J. Thomas
Design Concepts for Jib Cranes 74

Errata: Design Concepts for Jib Cranes 244

Chia-Ming Uang
Effect of Compound Buckling on Compression Strength of Built-up Member 30

Julius P. Van de Pas
New Fatigue Provisions for the Design of Crane Runway Girders 65

Donald W. White
Tension Field Action in Hybrid Steel Girders 52

Lei Xu
Story-Based Effective Length Factors for Unbraced PR Frames 13


Aaron J. Yakel
Flexural Capacity and Ductility of HPS-70W Bridge Girders 38
